

## Peer Instruction for Quantum Mechanics

Indicates a research-demonstrated benefit

### Overview

A collection of multiple-choice and short answer questions for discussion and reflection in an upper-level undergraduate quantum mechanics course.

**Type of Method**

Instructional strategy, Curriculum supplement

**Level**

**Designed for:** Upper-level Undergraduate

**Can be adapted for:** Graduate School , Intermediate

**Setting**

**Designed for:** Lecture - Small (<30 students) , Lecture - Large (30+ students), Recitation/Discussion Session, Studio

**Coverage**

Few topics with great depth, Many topics with less depth

**Topics**

Modern / Quantum

**Instructor Effort**

Low

**Resource Needs**

Projector

**Skills**

**Designed for:** Conceptual understanding , Making real-world connections, Metacognition

**Based on research into:** theories of how students learn , student ideas about specific topics

**Research Validation**

**Demonstrated to improve:** conceptual understanding

**Studied using:** cycle of research and redevelopment , student interviews , classroom observations , research at multiple institutions , peer-reviewed publication

**Compatible Methods**
