

## PhET Interactive Simulations

 Indicates a research-demonstrated benefit

### Overview

Open-ended game-like simulations that include expert visual models, enabling scientist-like exploration and real-world connections.

**Type of Method**

Curriculum supplement, Computer simulations

**Level**

**Designed for:** Intro College Calculus-based , Intro College Algebra-based , Intro College Conceptual , Intermediate , Teacher Prep Course, High School, Upper-level Undergraduate

**Can be adapted for:** Grade School to Grad School

**Setting**

**Designed for:** Lecture - Large (30+ students) , Recitation/Discussion Session , Lab , Lecture - Small (<30 students), Homework, Studio

**Coverage**

Few topics with great depth, Many topics with less depth

**Topics**

Mechanics, Electricity / Magnetism, Waves / Optics, Thermal / Statistical, Modern / Quantum, Mathematical, Astronomy, Other Science

**Instructor Effort**

Low

**Resource Needs**

Computers for students, Access to computers either in or outside of class

**Skills**

**Designed for:** Conceptual understanding , Making real-world connections, Using multiple representations

**Can be adapted for:** Lab skills , Problem-solving skills, Designing experiments

**Research Validation**

**Based on research into:** theories of how students learn , student ideas about specific topics 

**Demonstrated to improve:** conceptual understanding , lab skills , beliefs and attitudes 

**Studied using:** cycle of research and redevelopment , student interviews , classroom observations , analysis of written work , research at multiple institutions , research by multiple groups , peer-reviewed publication

---

You can find over 100 simulations available for free on the [PhET website](#).

PhET also has an [activity database](#) where PhET team members and teachers from around the world can contribute teaching activities using PhET simulations. The database contains hundreds of activities that you can download for free, including labs, homework assignments, lectures, activities, concept questions, and more.
